Advanced

The Advanced search lets you enter search words and pick search terms.

Thesaurus

Use the Thesaurus to find key terms or subjects to locate articles in PsycINFO. Enter your keyword(s) and click **Go To Terms**. Mark or check the box in front of a term, then click **Search Marked**.

Check Peer Reviewed to limit search results.

Search History

Once several searches are completed, click the Search History button to view searches. Delete unwanted searches with Remove button. Click Display Results to view old searches so you can modify them. Combine searches with the AND or OR buttons. The disk icon allows you to save searches for future use.

What to do when you find a citation without full text

Check the **Journal Title Search** to see if the Library provides access in some other format or database. With access to 31,000+ titles in over 100 databases, your article may be available in full text from another source.

Truncation Operators

An **asterisk (*)** stands for any number of characters.
A **question mark (?)** stands for exactly one character.
ie "compuls* addiction?"
