After a search, you can view the records. The **Results Manager** allows you to choose Print Preview, Email or Save. When you click Save, it will open a text file for you to save on disk. Click email, then type in your email address, and have the citations sent directly to you.

What to do when you find a citation without full text
Check the **Journal Title Journals** to see if the Library provides access in some other format or database. With access to 31,000+ titles in over 100 databases, your article may be available in full text from another source.

When printing PDFs, use the control bar for Acrobat, not the Internet browser.

Click here to print, rather than using the File, Print menu option.
